

JULIO CESAR RUBIO MONTAÑO

COMPUTER ENGINEER | FULL STACK & ANDROID DEV

Granada, Spain | juliorubiodev@gmail.com | +34 624415988 | <https://juliorubio.dev/>

Computer Engineer with a strong track record in web and mobile software development. Specialized in building scalable technological solutions and process optimization using Agile methodologies. Currently pursuing a Master's in Computer Engineering at the University of Granada. Passionate about innovation, knowledge, Artificial Intelligence, and working in collaborative international environments.

AREAS OF EXPERTISE

- Full Stack Development
- Databases
- Agile Methodologies
- Android Development
- UI/UX Design
- Artificial Intelligence

KEY ACHIEVEMENTS

- Agricultural Innovation:** Developed an AI system for the early detection of phytopathologies in crops, significantly reducing economic losses.
- Digitalization & Efficiency:** Architected and deployed an end-to-end technological solution (ERP + Network Infrastructure) that automated 100% of critical processes (Billing, sales, taxes), driving an 80% efficiency growth.

PROFESSIONAL EXPERIENCE

Digital Transformation & Development Lead

Tornimaq June 2024- June 2025

- Custom ERP Development:** Designed and programmed a comprehensive management system (ERP) that centralized inventory, electronic/physical billing, accounting, payroll, and commission calculation for advisors, completely eliminating analog management.
- IT Infrastructure & Networks:** Implemented hardware architecture from scratch, configuring a private local cloud, secure networks, and interconnecting multiple terminals (POS) and servers to ensure high availability.

Full Stack & Android Developer

Casa Creativa October 2022 - May 2023

- Design and development of responsive web applications and scalable e-commerce platforms.
- Implementation of secure authentication systems and transactional payment gateways.
- Web performance and SEO optimization, achieving a 40% increase in client conversion rates.

EDUCATION

Master's Degree in Computer Engineering

In Progress

University of Granada, Spain

Bachelor's Degree in Systems Engineering

October 2023

Universidad del Magdalena, Colombia

- Award: Artistic Merit Scholarship.

ADDITIONAL INFORMATION

- Languages:** Spanish (Native), English (C1), Japanese (N5).
- Tech & Tools:** JavaScript, React, Node, Next, Kotlin, Flutter, Dart, Python, SQL, MongoDB, Git, Docker, Figma, C/C++.
- Soft Skills:** Technical Leadership & Team Management | Technical & Functional Communication | Analytical Thinking | Adaptability | Problem Solving | Emotional Intelligence | Teamwork.
